What's the average monthly Social Security benefit for a retired worker?

Question

What's the average monthly Social Security benefit for a retired worker?

Answer

The average monthly Social Security benefit for a retired worker is about \$1,050 as of the end of June 2007. Information on the estimated impact of the latest cost-of-living adjustment (COLA) on average monthly Social Security benefits can be found at [Effect of COLA on Social Security Benefits](#).
